

RECOMMENDATIONS EXPRESS CLASSES

SPANISH ONLINE CLASSES

"I enjoyed learning with Martha. Each lesson was tweaked according to how I was learning that day. She was very patient and encouraging, adapting classes as needed. This adaptive structure helped me learn according to how my mind worked vs a strict structure of a curriculum. I thoroughly enjoyed the online course. Juggling work, childcare, pregnancy and Spanish having online classes enabled me to continue with them during the lockdown but also helped me fit it into a tight timeframe. I felt there was little difference between online vs in person classes and going forward would want to continue with online."

Lucy Garrett

"Martha was very friendly and patient. She constantly encouraged me and recommended new resources in areas that are directly related to my interests and would push me. Her knowledge of Latin American culture is excellent and I really enjoyed learning about it, however, there was some lack of teaching about Spain. She is very clear when explaining grammar points and teaches in an active way so that the student participates and engages directly in the lesson, rather than rote learning. I would definitely recommend Spanish Lessons in Surrey. The quality of the lessons was great, even though they all took place via video chat due to COVID-19. I improved my confidence and fluency in my speaking abilities due to the wide range of deep discussions. I felt that I was listened to attentively and kindly throughout the classes. My level ranges between C1 and C2. I will continue to study Spanish at university, and hopefully beyond. Instead of solely focusing on reading literature, I will make more of an effort to learn about the culture." **Alice Reeve**

"I am having lessons with Martha Jesty online because of the Covid Pandemic. I feel I am progressing well because she is an excellent teacher and makes it enjoyable to do. I would recommend her to anyone." **Gaby Pap**

"Given the length of the lesson, which is half an hour Express Classes, Martha Jesty achieves much by sharing learning aids for grammar, and by encouraging outside practice and reading. There is also homework, and the combination is enough. There are exercises in the lesson to assist learning the topic. Martha's knowledge of Latin American culture is extensive and informative. She is encouraging and patient and has a positive outlook to life and teaching in general. The lesson is well organized and preparation is good as well as having a good understanding of the pace at which to proceed. She is friendly and professional, a very good teacher and understands the different requirements of the students and adapts her methods accordingly." **Susan Williams**

"Martha Jesty is a very good teacher, always explaining and didn't move on until everyone understood. She emphasised the importance of doing as much homework and possible which was vital for our learning. I always enjoyed the lesson." **David Prigg**

"Martha Jesty is a very accomplished and friendly teacher. It has been many years since I last learned in this format, and Martha is extremely patient and can find many ways in explaining the language; a real pleasure to learn from her."
